

Wrap reel

Motorised, automatic, digital wrap reel with 6 ruling positions, suitable for making accurate lengths of yarns, in hank form, for subsequent weighing and determination of count and strength.

A digital preset counter is provided in the unit to set the desired number of metres. The unit is supplied with an automatic braking system which arrests the swift in the correct position when the desired length of yarn has been reeled.

Supplied with 6 station yarn package stand, pre-tensioning device and a detailed users manual and certificate

Features

- For use with up to 6 yarn packages
